

Recommended for Natural Fibres.

Triple Protect Ag+ protects wool carpets cotton, linen, viscose and other natural fibres extremely well, by being naturally absorbed by the fibre to its inner core it's protecting from spillages, not only on the face fibre but also the **fibre's inner core**, and therefore helping to prevent spillages from becoming locked in permanent stains. **Natural fibres** by nature will absorb up to 35% of their own weight in moisture before starting to feel wet, so naturally a spillage will be absorbed deep into the fibre. **Triple Protect Ag+** makes it harder for spillages to become locked into the fibres cores, therefore making it **much easier to remove the stain** and maintain it's appearance much better.

Why Protect with Triple Protect Ag+.

Triple Protect Ag+ will help protect against accidental spillages from becoming permanent stains.

Red Wine	Dye Transfer	Urine
Ketchup	Newspaper Print	Gravy
Cola	Cosmetics	Sauces

Triple Protect Ag+

Stains - Dust Mites - Bacteria

THE ULTIMATE PROTECTION

for

CARPETS
UPHOLSTERY
& MATTRESSES

A Whole New Level of Protection

Triple Protect Ag+ is an extremely advanced fluorocarbon based protector that has been **designed specifically** to be applied to **all carpet and upholstery fabrics**. By locking onto the fibres it provides an **invisible, yet extremely durable shield** providing for **superb resistance against oil and water based spills**. This means that spots caused from everyday household spills can be **easier to remove** by simple methods even when dried in. The nature of the shield also means **dirt particles do not adhere** to the fibres as easily, and therefore **reducing fibre wear and soil abrasion** also making for **easier vacuuming** and not forgetting protection from UV Bleaching.

Helps Prevent Stains

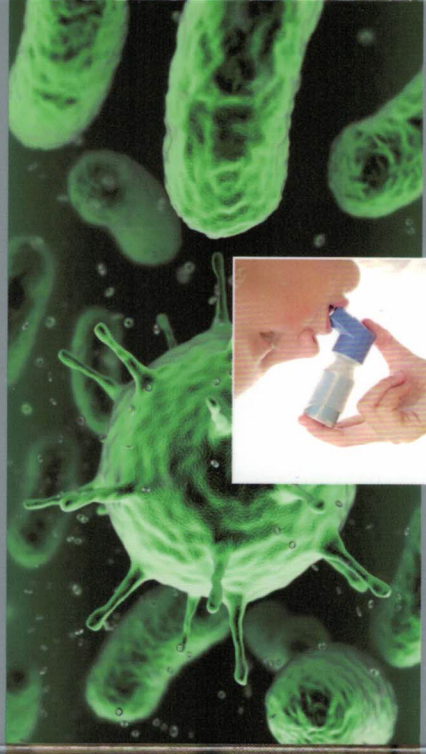

The Hygienic Solution

Triple Protect Ag+ takes protection to an altogether new level by infusing the stain resistance formulation with **Sanitized™** and **Biomaster® Scandinavia**, to produce a broad spectrum **antibacterial** and **antimicrobial** protective treatment. Derived from **Silver-ion (Ag+)**, **Triple Protect Ag+** provides an apply once solution to aid in the prevention of **permanant stains, Dust Mite** colonisation and protection against the **growth of bacteria, fungi, yeast and mould**, it will also **prevent unpleasant odours** and **infections** caused by Bacterium such as **MRSA**.

Good for Allergy Sufferers

The Perfect Time to Get Protected

Now is the ideal time as **Triple Protect Ag+** can only be applied to Brand New or Freshly cleaned carpets and fabrics to ensure the appearance of your carpets, upholstery and mattresses remain looking as good as they do now. Get them protected now to prevent against permanent stains, odours and even allergy attacks caused by dust mites. **Triple Protect Ag+** once applied, will do all of that for you, and even more besides. **Triple Protect Ag+** will give you up to 5 years protection, and as part of the service you will receive a **complimentary bottle of Spot Remover** plus our **Stain Removal Guide** and you will also receive a **FREE Stain Removal** visit for up to 3 stains in the 1st 12 months.
